How it works: Step 6- File Upload

Step 6: File Upload

Upload files needed for your manuscript in groups of five or fewer. If you have more than five files for your manuscript, upload the first five and then you will have the option to upload additional files. This process will continue until ALL files have been uploaded. These files will be combined into a single PDF document for review.

If you are submitting a revision, please include only the latest set of files. If you have updated a file, please delete the original version and upload the revised file. To designate the order in which your files appear, use the drop-downs in the "order" column below. View your uploaded files by clicking on HTML or PDF. When you are finished, click "Save and Continue."

NOTE: We require author biographies and signed copyright forms with all submissions. Click here to download the author biography form; and click here to download the NACE International copyright form. Read More...
