

Reprints are a great investment

Reprints

Ads, Articles, Magazine Covers

It makes good business sense to keep a supply of reprints on hand. Reprints are invaluable as reference material for bids, speaking engagements, contracts, and future employment. Reprints are also useful as instruction tools for other employees and for company-sponsored seminars and courses.

Reprints are an investment in yourself and your company...

- Strengthen your company's image as an industry leader.
- Increase your company's exposure at trade shows and conferences.
- Promote your company's products and services.
- Generate sales through direct mail campaigns and sales calls.
- Enhance your professional image as an expert.
- Educate employees and colleagues on the latest industry trends and technology.
- And more!

Customized Reprints

Reprints can be customized to meet your needs. There are no limits on creativity. You can add a customized cover, insert your company logo, replace original advertisements with your own advertisements, or add words such as "Compliments of..." "This reprint provided by..." or "As seen in Materials Performance," etc.

NACE can produce the customized artwork for you or you can supply the artwork to NACE. Please call for a quote for any special graphics work that you would like NACE to produce—no typesetting or graphics charges are included in the prices listed in this brochure.

Note: Reprints are produced using the original magazine files. Advertisements that appear on the original pages will be removed. The resulting blank spaces can either be left blank or filled with your customized ads or artwork.

Offset Printing (Four-Color/Black and White Reprints)

The standard paper used for printed reprints is 80-lb gloss enamel unless otherwise requested (add 10% to the prices listed for 100-lb stock). Finished size is 8" x 10.875".

Two-page reprints will be printed front and back. Four- and six-page reprints are done in a fold. Eight or more pages will be saddle-stitched unless otherwise requested. Special folds are available for an additional charge.

Proofs will not be provided unless requested.

Docutech Copies

Copies can be produced instead of traditional offset printing using a Docutech copier. The Docutech scans the pages and produces a better quality product than most standard photocopy machines (at 600 dpi or higher). The Docutech also has a mode for producing halftones when included in a reprint that creates better figure images than the average photocopier.

Copies will be duplicated on 60-lb white matte-finish paper and stapled in the upper left-hand corner unless otherwise specified.

Proofs will not be provided unless requested.

Production Time

All reprints are produced and shipped within eight to 10 working days. Domestic orders will be shipped UPS Ground and international orders will be shipped DHL (both deliver in an average of five working days). Shipping is not included in the price of the reprints.

FOUR-COLOR REPRINTS

Number of pages	Quantity					
	500	1,000	2,000	3,000	5,000	10,000
2	\$605	\$655	\$800	\$905	\$1,153	\$1,625
3-4	\$845	\$950	\$1,155	\$1,370	\$1,750	\$2,865
5-8	\$1,540	\$1,775	\$2,210	\$2,700	\$3,530	\$5,395
