

provide protection to pre-corroded surfaces.

## Acknowledgment

The authors wish to acknowledge the assistance of Dr. Mohamad Nagi at the American University of Dubai for the test facilities.

**KHALIL ABED** is the strategy & innovation director at Cortec Middle East, Dubai, United Arab Emirates, email: kaled@cortec-me.com. He works with international operating companies, contractors and equipment manufacturers to develop preservation procedures and engineered solutions for mitigating corrosion on assets using vapor phase corrosion inhibitors. He has an M.Sc. in mechanical engineering from the American University of Sharjah. He is a member of AMPP.

**MIHAD IBRAHIM** is an R&D chemical engineer at Cortec Middle East, email: mibrahim@cortec-me.com. She has more than two years of research experience in nanotechnology, and has been working on corrosion inhibitors-related research since she joined Cortec Middle East in 2020. She has an M.Sc. in chemical engineering from the American University of Sharjah and is a member of AMPP.

**LIETAI YANG** is the technical director at Corr Instruments, LLC, Carson City, Nevada, USA, email: lyang@corrinstruments.com. His primary interest has been the development of corrosion and solution chemistry sensors. He is the editor of *Techniques for Corrosion Monitoring*. Its 2nd edition was recently published by Elsevier. He is a member of AMPP. **MP**

AMPP offers more than 300 books covering every aspect of corrosion control in all industries. For more information, visit the AMPP Store at [store.ampp.org](http://store.ampp.org).
